

DO YOU WANT TO TEST THE APPS?

We are still looking for testers

contact@jointo.com - write in the subject field:

Android or iOS + quality test + the specific application you would like to quality test: GO, EDUCATE or/and TRANSPORT.

You will receive a link to the test version and further instructions.

FUTURE STO

JOINto is following the cryptocurrency markets and we continue to define an ITO or STO launch with the right timing. We do not pursue this opportunity before the market is right. This way we can ensure better funding for the future expansion where we intend to go worldwide.

WELCOME TO OUR NEW PARTNER & CTO

Please welcome Andreas Lyngholm Poulsen to the JOINto management team. Andreas has great experience with programming and app development. He has successful startups in his portfolio, and a high interest in artificial intelligence (AI) and how to incorporate this in the JOINto products. He has experience with all aspects of running a company and being an entrepreneur and has already proven a great asset to JOINto.

MARKETING FOR THE UPCOMING LAUNCH

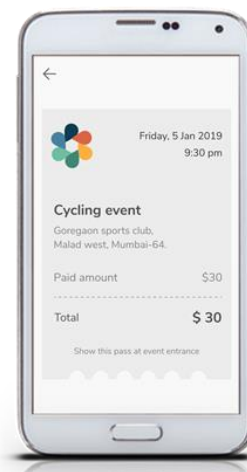

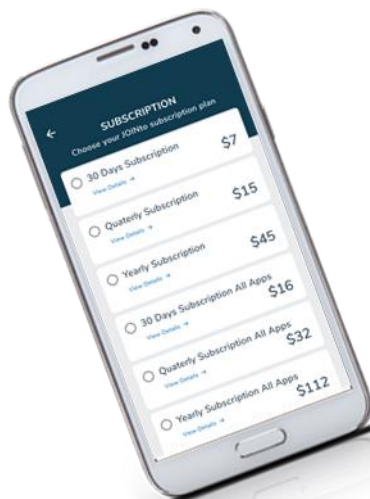

This week the team and advisors will have a strategy meeting in Copenhagen. Here we will define our final marketing strategy for the upcoming launch of GO and EDUCATE. Advisors are coming from Finland and Portugal, and our experienced marketing expert is flying in from the UK.

We continue the work and want to make the best marketing to ensure a good launch. Later this month we have invited an advisor from the US to meet us with a Danish marketing and branding expert. We will plan not only what to do, but also how and when! Then we are READY for launch, and the launch date will be announced very soon!

FREE APPS FOR USERS, SUBSCRIBE TO MAKE A REVENUE

All users can download all JOINto apps for free with no in-app advertisement as you know from many other applications. We build clean and crisp applications for users to enjoy.

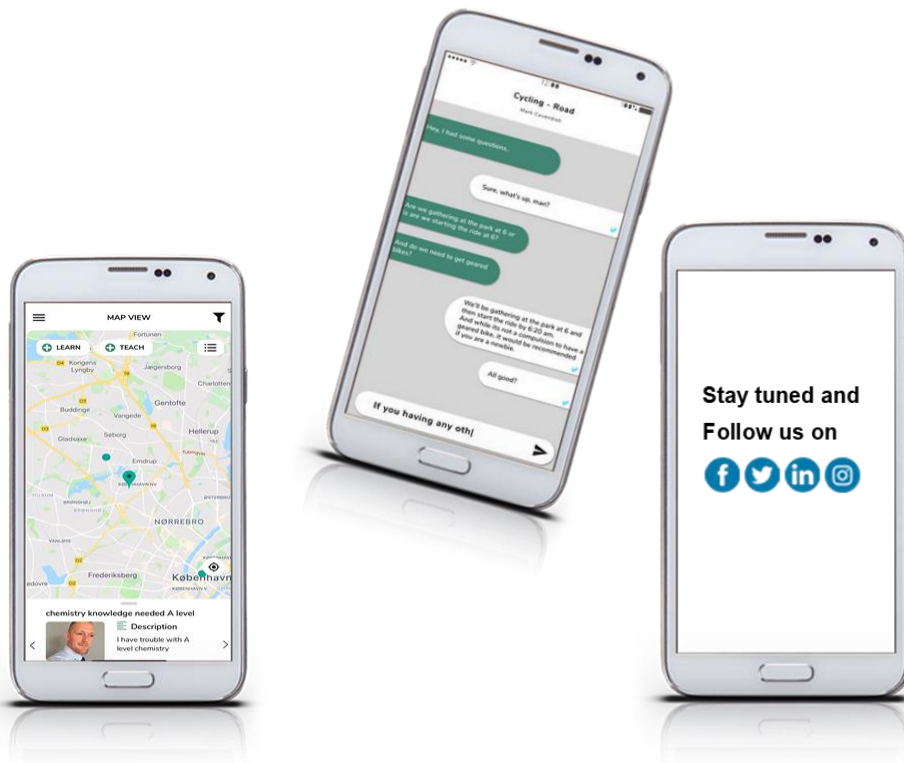

You can furthermore make your own revenue educating or training others in either EDUCATE or GO. Our pricing model is low subscription cost benefitting overall share economy and value for money for users! Free use of all apps is central for JOINto, and if you want to make a revenue, you only then need to pay a small fee. All free activities are free to create and free for you to JOINtoGO. Companies can create events and sales for you to partake in e.g. a cycling event.

THE QUESTION EVERYBODY ASKS – WHEN CAN I DOWNLOAD THE APP?

We are currently adding the final touch and will be ready to launch soon! We will launch when the apps are crisp and comes with a user experience and interface you find compelling and interesting. We have been working hard and we continue to work hard going forward, as JOINTo applications are based on a unique common platform bringing visual recognition for users and a future potential for JOINTo application integration into one overall JOINTo app.

And to answer the question above, we can say that a launch is within grasp and we cannot wait!

“I would love to use JOINToGO as this connects me for social activities with others, for real. Unlike other so-called social media! - Love the concept!”

“Mikkel Jönsson”

All the best
JOINTo Management team
